

Dear Razzle Dazzle School Stage,

Well I have to say, it was by sheer coincidence that I happened to go to the post office in Wickham Bishops and saw on their tiny notice board a bit of paper advertising the workshop that was taking place during half term. I knew it was a very rare thing to be going on in 'TIPTREE'; usually you are expected to travel into London to go to any sort of Stage School. So I phoned expecting them to say 'sorry all places have been filled', but to my delight and surprise I managed to get my son in. Not being particularly interested in football at the time like all of his friends, I thought I'd try something quite different. He loved dancing and was beaming with confidence, and so at the end of the workshop they did a production on the big stage. All of the children were brilliant. When phoning they couldn't have been more helpful. Tara and her team have been absolutely fantastic, very cool, and very professional. I can't thank them enough. Come October [name removed] will have been coming for a year and is still thoroughly enjoying it. I'm just slightly jealous that nothing like this was as near when I was 4yrs old!!!!

Thank you so much
T.Kirby
